

## IT HAPPENED TODAY

## Small Cars Give King-Sized Ache

## Miscellany

Two pint-sized automobiles at Santa Monica, Calif., gave one king-sized headache to traffic cop Bob Clark, who found them parked on a larger road. After much deliberation he finally gave two parking tickets to owners who protested they thought cars were too small. Clark's officials have decided to make it a test case.

★★★

What would you do if over \$2,000 in cash was thrown at your feet from a fast-moving car? Well this happened to New York machinist Paul Cirauta, 26, and girl friend Marie Williams, 20, when they told police transportation had been great to withstand.

Their southern vacation was cut short when in a store when a storekeeper there phone police—the money was countered.

★★★

## Medicine, Health

Canada has another first (the recently marketed warfarin first jet airplane) by recognizing officially the part her forces played in the Battle of the Atlantic. Warfarin, from now on, the first Saturday of October will be known as Navy Day.

★★★

Application for leave to appeal murder conviction of a Vancouver boxer received reserves decision at the Supreme Court Justice J. W. Estey pronounced a "decision as possible" in the case of Peter Uchenna, found guilty of killing Blanche Fisher, 45-year-old spinster, whose nude body was found last Oct. 21 in Fair Creek, near downtown Vancouver.

★★★

## Britain

British backyard roosters have been given the ax—but not because of their sharpened type.

The cocky birds have been banished again from the United States. Number of polices cases this year, a slightly above 100, were the highest since last year, when the United States had an all-time high of 42,375 new polio patients.

★★★

By writing to Britain's new budget, Princess Elizabeth and Prince Philip saved £1,500 (\$4,650) on their new Rolls Royce. The car's cost of tax on automobiles costing more than £1,000 from 60 to 25 per cent. In the budget the rate for April 1, when the car would have cost £8,000, at the new, it stood the royal pair about £6,500.

★★★

Arms' chairman and adviser, John W. Beard of Vancouver, Wash., has arrived at the Pan American Games in Mexico City. He is the only Canadian on the 3,000-strong team to trip over the Hudson Bay Trail from Vancouver, Wash., to Rivière Du Loup, Que.

★★★

World

Body found 19 miles offshore from Ocean City, Md., was identified as that of James Trotter, 32, who was sucker punched by a Puerto Rican in a bar last July 1. The Baltimore man was aboard a chartered plane when the plane blew open and he was washed overboard. He was found when the plane was washed out as he tried to close it.

★★★

With an ominous rumble, George Drew said at Winnipeg

that he was about to close his eyes.

## ENTRY FORM

## EDMONTON BULLETIN 2ND ANNUAL JUNIOR AIR SHOW

## (Alberta Provincial Model Aircraft Contest)

Under the auspices of the Alberta Branch of the Model Aeronautics Association of Canada

Name \_\_\_\_\_ Age \_\_\_\_\_

Address \_\_\_\_\_

I wish to enter the following events:

1—Jumbo powered cabin type \_\_\_\_\_  
2—Free flight gas model \_\_\_\_\_  
3—Control line speed \_\_\_\_\_  
4—Control line stunt \_\_\_\_\_  
5—Control line scale \_\_\_\_\_

Clip this entry form from paper and mail to: Contest Director, Junior Air Show, Edmonton, Alberta. Every competitor must complete this entry form. Entries will be accepted up to starting time of each event at Namao Airport, July 9th.

NO ENTRY FEE

## 90,000 Korean Reds Massing

(Continued from Page 2) frontal attack and a flanking envelopment.

The Americans and South Koreans have no tanks in action as yet.

American forces frantically built up their forces by air and sea from Japan.

Each side had lost 28 planes in

the Korean conflict.

The American and South Korean troops were cut off from the rest of the American forces in Korea.

The Communist radio reported yesterday that Red forces had captured Kaihsing.

The battle was over. Kalscher got back to the American lines.

## He Was Cut Off With U.S. Troops

## Russian-Made Tanks Return To Force Their Withdrawal

EDITOR'S NOTE — For 2½ days, United Press Correspondent Peter Kalscher and a group of American troops in defense units below Suwon were cut off from the rest of the American forces in Korea. The Communists had captured Kaihsing. The Communist radio reported yesterday that Red forces had captured Kaihsing. The battle was over. Kalscher got back to the American lines.

By Peter Kalscher

Exclusive to the Bulletin

ADVANCE U.S. HEADQUARTERS, KOREA, July 7.—(UPI)—I have just returned from two and one-half days behind the North Korean lines with a group of American troops who were cut off from the rest of the American forces in Korea.

The battalion had barely moved into position in the far, flat American outposts some three miles from Suwon, the American lines, on the 31st of July.

Just south of the 31st parallel, the American tanks had been held at bay by the Red forces.

American artillery a half mile back opened up on the tanks just as I reported to the command post.

The tanks had been advancing from Ansan to Pyongyang, a point on the west coast just south of the 31st parallel.

American tanks had been held at bay by the Red forces.

American artillery a half mile back opened up on the tanks just as I reported to the command post.

The tanks had been advancing from Ansan to Pyongyang, a point on the west coast just south of the 31st parallel.

American tanks had been held at bay by the Red forces.

American artillery a half mile back opened up on the tanks just as I reported to the command post.

The tanks had been advancing from Ansan to Pyongyang, a point on the west coast just south of the 31st parallel.

American tanks had been held at bay by the Red forces.

American artillery a half mile back opened up on the tanks just as I reported to the command post.

CANADA'S FIRST sky writing company has been formed by Edmonton pilots Al Laing and Jack Unger. Here they check details before test flight yesterday.

## DAY BY DAY

### Cyclist Has Narrow Escape As Bike Burns Beneath Him

An Edmonton motorcyclist escaped with only slight who pleaded guilty to charge robbery when his motorcycle caught fire underneath him as he was lighting a cigarette.

Firemen from No. 2 Hall quickly dashed the blaze at a Jasper and 96th street intersection, but a chemical tank and boiler line.

Motorcyclist O. H. Mickey, 9603-105 street, told police he had a full tank of gas and was sitting on his motorcycle lighting a cigarette when the vehicle caught fire. He blamed it on gas fumes ignited from his cigarette.

He hurriedly leaped from his machine, which fell on its side, letting the gas run out and feeding the spreading flames.

The motorcycle was badly damaged.

Members of Beverly town council last night agreed upon the terms of reconstruction of roads in the town following recent rains.

Construction crews will commence work on July 1st, said secretary treasurer of Beverly.

Due to dry weather, a major project on roads has been postponed, it was decided at a meeting on August 1st.

One-time resident of the Edmonton district, Dr. William Henry Artherton, well known teacher and sociological worker of Montreal, died yesterday.

Upon his arrival in Canada in 1907, Dr. Artherton taught at St. Albert's College where he met Bishop Emile Legal, an acolyte of the exiled Roman Catholic church.

He later left for Montreal and identified himself with a number of progressive institutions in the province of Quebec.

Chief court prosecutor W. J. Shortreed said today he had applied for leave to appeal against the sentence imposed at last sitting of the Supreme Court on August 1st.

Mr. Shortreed said he will be dismissed during the term of the court sitting, but will be available for the trial of the "social and personal life" the expenses and effort we give to it.

A teacher and school board official of 20 years, Mr. West is lecturing in the senior course in educational psychology at the University of Alberta summer school.

He was born in a one-room school at Ann Arbor. Prior to his school position, he was a teacher of social studies at the Junior and high school levels.

A graduate of the University of Michigan, Mr. West is married and has one son, a daughter, at Ann Arbor. No newcomer to the University of Alberta he taught the senior course in education philosophy.

As a graduate student at Ann Arbor for eight years, Mr. West has also been a research assistant in curriculum work and a children's committee member and school relations at Ann Arbor. Prior to his school position, he was a teacher of social studies at the Junior and high school levels.

A graduate of the University of Michigan, Mr. West is married and has one son, a daughter, at Ann Arbor. No newcomer to the University of Alberta he taught the senior course in education philosophy.

Building Permit Totals Better \$19 Millions

A 47-house building project worth \$280,500 and an \$8,000 church project last year shot the city's 1950 building permit totals past the \$19,000,000 mark.

Aldred Construction took out permits for construction of 47 new houses and a church, a portion of a neighborhood unit—a town planning department project for the area between 106th and 116th street and north of 60th avenue.

The houses will be built between 40th and 44th avenue, between 111A street and 112A street. Two-thirds will be \$6,000 bungalows and the remainder storey-and-a-half houses worth \$1,500.

The \$86,000 church building permit covers a 78 by 118 foot brick structure. It is to be added to the Edmonton United Church at 10809-123 street.

## Texas Pipeline Officials In City

### Representatives Of Company Confer With Premier Manning

A group of Texas pipeline company officials arrived in Edmonton today to confer this afternoon with Premier Manning on a proposed plan to link Canadian and Texas gas fields.

The party was headed by Ray C. Fish, Houston, Texas, who recently announced plans for a 2,100 mile line from the Gulf of Mexico to the Pacific Northwest.

Others in the party were James Hogan, Robert Herrin, and F. A. Jensen, all of the Houston office.

Edgar C. Conner, manager scheduled to attend the conference with the provincial government, according to advance report, immediately from southern Alberta to the party.

The Houston gas pipeline company official was quoted in the course of a Canadian news story as saying he proposed to sell Alberta gas to the United States.

Meanwhile, officials of Windsor, Ont., made their fifth move toward promoting a reciprocal exchange of gas between Canada and the United States.

At Windsor, Mayor Arthur J. Reid said he will visit Victoria on Saturday to give a speech on a possible expansion of western Canada gas to Western states in exchange for imports of gas to Western Canada.

"It is my opinion that if an arrangement can be made where Canada raises no objection to Alberta's gas export, then in the United States there should be no objection to Alberta's gas import," he said.

A limited amount of Texas gas is now being imported for use in Windsor and other Ontario cities, said Reid. Approval of the reciprocal exchange scheme would result in greater increased imports of Texas gas at Windsor.

The Scottish educator and his wife will spend the weekend in Jasper and Banff, and then go to Victoria, B.C., Monday. More of the university here, then they will go to Vancouver and Victoria after a brief return visit to Edmonton.

John Langdon, former assistant manager of radio station CKUA in Edmonton, was told they had robbed electricians at the station last night after cutting their legs with "a piece of a saw" to make him tell where they were.

A doctor testified at a preliminary hearing that Wrylow had "hundreds" of superficial cuts on his legs and feet.

Walter Blackburn, formerly executive secretary of the John Howard Association, has been appointed assistant superintendent of Edmonton's welfare department.

Superintendent E. S. Bishop announced yesterday the appointment effective August 1st.

Chief court prosecutor W. J. Shortreed said today he had applied for leave to appeal against the sentence imposed at last sitting of the Supreme Court on August 1st.

Mr. Shortreed said he will be dismissed during the term of the court sitting, but will be available for the trial of the "social and personal life" the expenses and effort we give to it.

There is a CHRISTIE BISCUIT for every taste

### EXPERTS WILL PROBE CIVIC DEPARTMENTS

An administrative survey of three civic departments will start Wednesday.

A Vancouver firm of management engineers, Stevenson and Keay, will be retained by city commissioners to do the work.

Commissioners John Hodges and today the firm will study organization, procedure and administrative methods of the electric light, water and billing departments.

"We want to see just how efficient our setup is," said Hodges, "and how we can make it even more efficient as we have to compete with other departments," he said.

He pointed out that the city is developing a radically new service system, and that the experts will be able to advise the city manager on the breakdown.

The Coast Farm recently conducted an overall survey of administration in Victoria. It is to be completed in a month.

The famous modern educationalist won't have a word to say about the old teacher, just the same.

In Edmonton today, the course of a Canadian teacher is straining to the limit, as he is faced with a new and difficult task.

The famous modern educationalist won't have a word to say about the old teacher, just the same.

With a year, they expect to have perfected the first "techno" aerial smoke in the world.

LASTS LONGER

The last smoke gives 50 per cent longer life to the air.

The two pilots predicted it will be widely used in the United States and Canada, and by the end of the year, 100,000 units will be in use.

Thousands will see their final performance at the International Exhibition and Galaxy Stampede.

LASTS LONGER

The last smoke gives 50 per cent longer life to the air.

The two pilots predicted it will be widely used in the United States and Canada, and by the end of the year, 100,000 units will be in use.

Thousands will see their final performance at the International Exhibition and Galaxy Stampede.

The two Edmonton pilots are nearing the end of a year's work on developing a radically new service system, and that the experts will be able to advise the city manager on the breakdown.

The famous modern educationalist won't have a word to say about the old teacher, just the same.

With a year, they expect to have perfected the first "techno" aerial smoke in the world.

## JACOBY

on

## Canasta

By OSWALD JACOBY

"My husband, who has uncared from playing canasta, has complained to New York City readers 'generally wait until our opponents are on the board. Then he gets the last hand.'

"Often when it is his, he makes a haul. This may be fine when our count is 10, but for 90 or 100 this proves to be a bad habit. He absolutely refuses to meld until he is able to take the pack. In the meantime my hand has been broken up and my opponents make a canasta and go out before me."

"I claim this is a partnership game and that he must meld before his partner even if it deprives him hand. Who is right?"

"In my opinion he is right. It is meant to take the discard pile when you meld, but you can't always have things your way. In the last hand of a game, I canasta to refuse to meld from your hand. Mind you, there is a great 'in-the-air' when it is his turn for the initial meld. When you meld, it is possible to use up more than three or four cards in the hand. Even when you need 90 points, you should avoid using up more than five or six cards."

But, as you see, it is also great virtue in freezing the pack when the opponents have made the first meld. It is also to be noted that they have depleted their hands, but not if they still have a ample supply of cards.

You can always make a plan in advance and have a plan no matter what cards you happen to get. You can always make a plan to cash in and what the opponents are able to do. The mechanical player is bound to lose to the player who can also has tactics to fit the circumstances.

\* \* \*

Before drawing a card, I and doing so, always plan as far as possible. I then put down a six and a deuce to take the discard pile, which was headed by a six. This was a good move, quite a move! Here were they justified. A—Yes, they had a right to hold. If you want to take the discard pile for your initial meld, you must have two natural cards that match the previous meld.

You are not allowed to put down a sufficient meld and then—on the same turn—take the pile with the natural cards and then meld. You are allowed to take the pile with one matching card and one wild card only if the initial meld has been made at a previous turn.

**Operations Nurse-less**  
THE ANTL, July 7.—Anti-aircraft doctors had to perform emergency operations without the help of assistant nurses. When a nurse staged a 6-hour strike demanding better working conditions in hospitals.

## New Radio Show Seeks Squealers

Producer Expects Publicity  
In Solving Old Murders

By Virginia MacPherson

Exclusive to the Bulletin

HOLLYWOOD, July 7.—(UPI)—It's a genuine \$40,000悬赏 (reward) and he hopes he loses, radio producer, and he appears to have his marshalls all right but he's not sure he's got the right people to help him. He's happier than to lose \$30,000 every Thursday night for the rest of the summer.

He's better, he calls for the men in the white coats, here's the gimmick.

Saphire books is a show last year called "Something Known." It's a sort of combined whodunit and giveaway, and all you do to collect is produce evidence that'll try to solve these cases," he explained.

"The Sun-Times caught three suspects. One was convicted. The other two are still at large. We only have one witness. As long as he's the guy who knows who did it—and will rat on his pals."

Saphire said the winners will be identified by a number instead of a name—in case anybody feels like dumping off for squaring.

"They send the information to the Chicago Sun-Times, who get the idea from William Finestad, who also has been writing for us," he said. "It's been transferred to the State Department as officer in charge of the program."

Saphire got the idea from the Chicago Sun-Times, who get the idea from William Finestad, who also has been writing for us," he said. "It's been transferred to the State Department as officer in charge of the program."

"Every week we'll dramatize one of the juicier ones," Saphire explained. "There are 100 cases to select from in clues. And if any of those lead to the conviction of the criminal, we'll pay \$30,000."

**HUNTER**—And just in the chance he can't solve one case, every one crime solved through his show would put "Something Known" on every front page around the country.

"We don't have a sponsor yet," he said. "So I'm putting up the \$40,000 myself."

He said his listeners are mostly criminals and thugs and gangsters and steel pigeons. Mostly steel pigeons.

"These are the ones who usually

**FINAL DIVORCE** was granted actress Bette Davis, aging Hollywood star, from artist William Grant Sherry in Juarez, Mexico, yesterday. Wide-eyed screen favorite's ex-husband is due to marry 23-year-old Marion Richards early in August. Miss Richards is former nurse of Bette's four-year-old daughter.

## Storied British Plumbing Due For Soundproofing

LONDON, July 7.—(Reuters)—A dollar-conscious government yesterday announced it will spend public money over the next nine months to improve hotel accommodation for American and Canadian visitors to Britain.

Government advertising will allocate government funds to equip hotels judged to be in a good position for dollar tourists.

Government's advertising director said to work out details, but hotel men said today they think mass aid will go to bring plumbing and heating systems up to date.

He said: "The mechanical player is bound to lose to the player who can also has tactics to fit the circumstances."

Before drawing a card, I and doing so, always plan as far as possible. I then put down a six and a deuce to take the discard pile, which was headed by a six. This was a good move, quite a move! Here were they justified. A—Yes, they had a right to hold. If you want to take the discard pile for your initial meld, you must have two natural cards that match the previous meld.

You are not allowed to put down a sufficient meld and then—on the same turn—take the pile with the natural cards and then meld. You are allowed to take the pile with one matching card and one wild card only if the initial meld has been made at a previous turn.

**WILSON REVEALS PLAN**  
Harold Wilson, president of the Board of Trade, announced the scheme today in the House of Commons.

He said the government made its plans especially with the idea of providing more and better hotel accommodation during 1951, year.

The scheme ends March 31, 1951. It is anticipated that most of the money will go to improve amenities.

## RE DREAM GAME

### Casey Stengel Blasts Rival Managers

NEW YORK, July 7.—(UPI)—Casey Stengel charged today that Fred Haney, manager of the league minor league, was trying to "make a sucker of me" by refusing to cooperate with the junior circuit's All-Star game. Haney said: "I'd like to be a league master and I won't lose any sleep over it."

Stengel first threw up his arms in anger and then washed his hands of the master after manager Red Rofe of the New York Tigers and manager Lou Boudreau of the Cleveland Indians announced that Art Houtteman and Bob Meusel, the two All-Stars, would not be available for mound duty against the National league stars two days ago.

Stengel also expected Ray Scarborough to pitch for the Chicago White Sox on Sunday, July 10, but the right-hander, a pitcher Stengel picked up available for duty.

"What do they want me to do?" Stengel demanded. "Pitch my three guys—Alie Reynolds, Vic Raschi and Tommy Byrne?" Rofe says his pitching is the best to have in the All-Star game. "Mine is thin, too. Maybe it's thinner than Rofe's."

Stengel said he purposely arranged his pitching rotation so Ed Lopat would work on Sunday permitting Reynolds, Raschi and Byrne to rest for the All-Star game. He said other AL managers had been advised in a conference at the office of Will Harridge's office to arrange their pitching rotation so that all the circuit's All-Stars would be able to pitch on Sunday.

"I can't grab a shotgun and force a pitcher to go out there," Stengel said. "And I can't tell one manager to pitch and not the other teams. That's a league master. All I know is that those guys are on the road and there's no time to be ready if I want to use them."

Stengel issued a suspension command for the whole All-Star game, which was to start at 8 p.m. meetingless rambunctious when advised that commissioners A. B. Chandler had granted National League manager Joe Shonan permission to substitute Brooklyn's Duke Snider in centre field for Cleveland's Hank Sauer who was then on the road.

"It just goes to prove the fan vote isn't worth a dime," Stengel said. "I would have voted for Musial in the outfield as well as possible, too. Yet Musial was picked as a firstbaseman. Why bother to have a All-Star game if they think it's being kidding?"

The New York Yankee manager admitted that "I might have picked Musial" when he failed to name Cleveland's Al Rosen, who has been hit 20 home runs in the AL aqua.

"They've got a good argument for Rosen," Stengel admitted. "I'm going to see if I can't do something about getting him on the team. The job is done, I guess. I've got a job. I overlooked him because George Kell got more votes than any other player in the league, and I figured I'd play him nine innings. But maybe I can find a spot for Rosen. I'm not going to do it. What's the sense of having a guy on the squad if he can't pitch?"

In Cleveland, general manager Hank Greenberg of the Indians said earlier he "would like to know why Rosen was not picked when eight Yankees were put on the team."

### YAN FARE

By Walt Ditzel

**STRONGEST** and youngest teams in the girls' doubles event of the city junior tennis championships, last Saturday, were the 17th holding Duncanson and Evelyn Link, earning Louis Marcellus. Had the Sweeney-McManus duo won their first match they would have bumped into big girls Tweed and Link. And when they changed courts the little lasses would have been transported over the net as above.

### Seeded Players Advance In Junior Tennis Tourney

Seeded players moved ahead in the annual Canadian junior tennis championships following yesterday's first round at Guelph.

Frank Oliver, number one种子 in the boys' under-16 singles and also on the Duncanson team heading for Guelph this Sunday, breezed by Robert Kahl in straight sets 6-1, 6-0.

It was the same story for leading chisel-voiced boys' under-18s, as Evelyn Linka downed Barb Snorred 6-0, 6-2.

Only upset in the day's play was Alie Reynolds, 16, 6-3, 6-2, over third seeded Andy Hennig.

Play continues today at Guelph with the event in the semi-finals. Finals will be played tomorrow afternoon.

Following are yesterday's results and today's draw:

#### BOYS' SINGLES

Ghitter def. McEwen 6-2, 6-0; McEwen def. Duncanson 6-2, 6-0; Naught 6-2, 6-0; Lyons def. Hall 6-0.

#### GIrlS' SINGLES

McManus def. Hall 6-2, 6-0; Edwards def. McManus 6-2, 6-0; Edwards def. Kahl 6-2, 6-0; Kahl def. Snorred 6-0, 6-2.

Only upset in the day's play was Alie Reynolds, 16, 6-3, 6-2, over third seeded Andy Hennig.

Play continues today at Guelph with the event in the semi-finals. Finals will be played tomorrow afternoon.

Following are yesterday's results and today's draw:

#### BOYS' SINGLES

Ghitter def. McEwen 6-2, 6-0; McEwen def. Duncanson 6-2, 6-0; Naught 6-2, 6-0; Lyons def. Hall 6-0.

#### GIrlS' SINGLES

McManus def. Hall 6-2, 6-0; McManus def. Duncanson 6-2, 6-0; Edwards def. McManus 6-2, 6-0; Edwards def. Kahl 6-2, 6-0; Kahl def. Snorred 6-0, 6-2.

Only upset in the day's play was Alie Reynolds, 16, 6-3, 6-2, over third seeded Andy Hennig.

Play continues today at Guelph with the event in the semi-finals. Finals will be played tomorrow afternoon.

Following are yesterday's results and today's draw:

#### BOYS' SINGLES

Ghitter def. McEwen 6-2, 6-0; McEwen def. Duncanson 6-2, 6-0; Naught 6-2, 6-0; Lyons def. Hall 6-0.

#### GIrlS' SINGLES

McManus def. Hall 6-2, 6-0; McManus def. Duncanson 6-2, 6-0; Edwards def. McManus 6-2, 6-0; Edwards def. Kahl 6-2, 6-0; Kahl def. Snorred 6-0, 6-2.

Only upset in the day's play was Alie Reynolds, 16, 6-3, 6-2, over third seeded Andy Hennig.

Play continues today at Guelph with the event in the semi-finals. Finals will be played tomorrow afternoon.

Following are yesterday's results and today's draw:

#### BOYS' SINGLES

## Peter Serbu and No. 67

Does the name Peter Serbu ring the bell with you? Have you seen a nodding acquaintance with "No. 67" or even with Don Stewart, a young rapper out of Unity, Saskatchewan?

The answer, of course, is in an overwhelming number of cases is a firm "No!"

Serbu, when he registered at the Brooklyn Dodger school Wednesday morning, undoubtedly realized it was quite a hop from Renfrew Park to Ebbets Field, home of the parent Dodgers.

★ ★ ★

But after 48 hours of classes—of throwing and hitting the ball, of foot races and infill drill, of makeshift games—the 16-year-old shortstop from Willington, even if he may not be aware of it, has shortened the distance somewhat, where he's concerned.

★ ★ ★

Because Don Lindberg and Charlie Smith, the men sent in by "Mr. Bickey" to conduct his fourth annual baseball school, "like" the youthful Serbu.

Also they like "No. 67" (that's all Lindberg knew him by after yesterday's workouts "without consulting the cards"). As for Stewart, the faculty is practically enamored of him, having seen him belabor three or four balls over the right field fence.

★ ★ ★

This is not to say that Serbu, No. 67 and Stewart are only students to have caught the glad eye from Lindberg, Smith and Co.

Neither is it to say that any of the trio ever will see the diamond of Ebbets Field, or even the parks at Bismarck-Douglas or Newport News, both of which happen to be farm clubs of the onetime Daffiness Boys.

Truly the road of organized baseball is rocky with bad hops and cracked curvatures that can break the spirit of but the most stoic-hearted. So I'm not suggesting even the single boy is safe at the current school, unless it's a beauteous Stewart.

★ ★ ★

Lindberg has Serbu pigeon-holed as "a pretty good sized lad. He has a good arm. Looks good to us."

★ ★ ★

Asked if the hope was to "see the boy again next year," he replied, "we'd like to see him for the next three years."

No. 67—a catcher—earned a similar pat on the back.

As for Stewart (Renfrew Park fans may see a lot of him in the next few weeks, there being a deal in the works) he has had him at camp.

The Saskatchewan power-boy reported to a California centre this spring. However he developed a sore arm and returned home.

Subsequently he hooked on at North Battleford. Since then a more or less steady diet of league and tournament ball has put the umph back in the once ailing flipper.

★ ★ ★

It's a wonderful opportunity the sprouts are being presented, both mornings and afternoons at Renfrew Park.

Hot dogs, popcorn, candy, etc., being held out, in many cases, for the price of a bus ticket, or even less.

The sad part of it is that more and more young fellows can take advantage of the offer. The more than 100 who attended the 1950 school keep professors Smith and Lindberg on the boards.

★ ★ ★

So frequently you hear it asked of the Brooklyn search for talent in this area "is it ever going to pay off?" Are they ever going to find a future major leaguer?

★ ★ ★

Well, it'd be suggested that "future major leaguers" don't end up in the Enclosed States.

And the Brooklyners are pretty high on Gert Gordon, the Vilnius boy with back with Calgary Purists after spending a great season in the West Loop in 1949 as a Dodger farm-hand. Amazingly, he's been reported to be in camp again this year, the club after a month and returned home.

But Bickey's men haven't given up hopes of straightening him out. Lindberg mentioned "major league material."

★ ★ ★

Two years ago they plucked catcher Alex Sirots at the Renfrew school. "One of the best receivers in baseball today," they now label him. Both Gordon and Sirots are 20 years of age.

★ ★ ★

Now it's the turn of the Serbus and the Stewarts. Or it might be that "No. 67" will one day pop up in a Dodger monkey suit as Stan Kukla, which happens to be his name.

★ ★ ★

**BOBBY LOCKE THIRD**

## Putting Welshman Leads British Open

THROGN, Scotland, July 7—(CP)—Dai Rees, a Welshman with a putter that worked like a fairy's wand, led the pack into the final half of the British Open golf championship yesterday with a two-round score of 71-68—139.

Totals of 148 or less qualified 35 players from all over the world for today's final round. The winner after that will take over the crown now worn by South African, Bobby Locke.

Locke, who came from the same hole in the 1949 title, is in third position, two strokes off Rees, with rounds of 69 and 72 for a 141. W. J. Branch of Britain was in second place with a 71-69—140.

Three Britons are bunched together in fourth place with 142 and 143. They are the three members of the American contingent in a four-way tie for seventh place with 145.

The other three Americans—John McElroy of Philadelphia, with 146, and Frank Strahman of Toledo, O., with 147.

Wednesday's action was suspended by rain. The British Open player, with a 76 for an aggregate of 144, Wednesday. Lees took the lead with a 68-Two under par, 142, and 143, twice as course where regulation figures are 35-37-35.

Rees' putter failed him only once in his first 14 holes yesterday. He used three putts on the second green but later sank some beauties such as the 12-footers that went in on the 14th and 16th, twice as long that dropped on the 13th.

Still more singles putts saved him for him when he got into

the British Ryder Cup player, crashed with a 76 for an aggregate of 144. Wednesday. Lees took the lead with a 68-Two under par, 142, and 143, twice as course where regulation figures are 35-37-35.

## Slipping Yankees Slip Past Athletics in Ninth

NEW YORK, July 7.—(CP)—The Yankees may be slipping, but they had enough power yesterday to snatch a 5-4 victory over Philadelphia Athletics with two out in the last of the ninth.

The game at New York was tied 4-4 when the Athletics' leading gear infield foul off relieved pitcher Lou Bristo and scored on Yogi Berra's double.

The Cleveland Indians completed

a sweep of a two-game series by beating Chicago White Sox 5-2.

### GIANTS TOPPLED

Philadelphia Phillies stayed with

in striking distance of St. Louis in the National League race by defeating New York Giants 4-3.

Bob Miller, sensational rookie

right-hander of the Phils, started and pitched a nine-inning scoreless

game, but gave up a run in the

second, which will set

approximately 7:30 to 8:00

for the game between Anse

and Oliver St. Pauls.

### CUBS MAIL PIRATES

Chicago Cubs routed Bill Wirth

with a three-run uprising in the

eighth, and defeated Pittsburgh

Pirates 4-2 at Chicago.

Wirth, 30, had given up five hits

for his second victory of the

season. The only run Wirth pre-

pared to the eighth was Hank

Ward's two-run home run.

Two-run homers by Ed Miksis

and Gil Hodges paced Brooklyn

Dodgers to an 8-3 victory over

the Pirates in a night game at

Brooklyn.

Lefty Prescer Roe went all the

way for Brooklyn to pitch his 10th

victory. Del Crandall and Bob

Hoover homered in the second

for Boston.

Miksis, subbing for the injured

Jackie Robinson, had a 10-inning

game, but he broke his little

streak led a 16-inning attack on Warren

Spahn and Ewell Blackwell

of the Milwaukee Braves.

Robinson missed a Brooklyn

game for the first time since

June 2, 1948 and ended a streak

of 34 consecutive games.

## ON THE BRIGHT SIDE

### Coal Convenient In Good Old Days

The "good ol' days" were pretty convenient ones, too. So it sounds when Acting Mayor Sid Bowcott starts reminiscing.

Back in 1907, when he first arrived in Edmonton, he built himself a little shack on the river bank, below the present Bulletin building.

He ran into a two foot seam of coal in the process, so he put a trap door in the floor—and there was his perpetual coal bin.

"Mighty handy it was, too," he mused.

Then there was the time Mr. Bowcott and his brother fished a celebratory citizen out of the river in front of their domicile.

He inshisted he was just lookin' for a shishir way home.

The brothers persuaded him to take the long way home—by way of the Low Level bridge.

### Anybody Want A Job?

Anybody any suggestions?

Acting City Architect Bob Duke is in a real fix—what with his department up to its ears in permits for new buildings.

He's been trying for some time to get an assistant city architect, by advertising in the architectural journals. Now he's trying newspaper ads.

"But not even one half—so not much as a nibble—have I had," he says.

The job must be a qualified architect and a member of the architectural society of the province in which he now resides. Salary starts at \$3,410 a year, and increases by annual increments to a maximum of \$4,410.

And to Edmonton Transit System's Highlands route bus driver Paul Leger, 11549-82 street, an ordinary job.

Leger won plaudits of his passengers when he stopped his bus near 81 street and 112 avenue to permit a boy of about five, his interests centred on the ice cream cone he was eating, to scamp across the street.

No blowing of horn, either. He just stopped the bus and waited until it seemed safer for him to continue.

★ ★ ★

Wind dislodged a glass pane from the second floor window of Andy Greenman's bar 7846 75 street. The two-foot by three-foot pane fell 18 feet to a wooden sidewalk.

Grossman is still wondering what strange power kept the glass from breaking—not even a crack.

★ ★ ★

### Chief Enjoys Himself

Chief Constable Reg Jennings is back from vacation looking tanned and healthy and generally none the worse for what he admitted was a three-week "bender" . . . of sorts.

The chief is again on the non-smoking "wagon" now, though he had three glorious weeks he and his cigars were "inseparable."

"I'd stopped smoking for some time before I left on my vacation," he said. "But there didn't seem any point in denying yourself when you're supposed to be enjoying life."

"We'd barely got outside the city limits bound for Banff when my son lit a cigar. I didn't hesitate a moment. I lit one too," he laughed.

### Loyal Edmonton Unit Gets Gift Of Pictures

The reserve army's Loyal Edmonton Regiment wound up special training last night with a smoker in the Prince of Wales Armouries.

The event was presented to the regimental and auxiliary parades and units of gear to make a tuneful exercise of the parading and marching along the streets. The pictures, prints of scenes made when Bryan Morrison, well-known in England early in the 19th century, and Fred W. Morrison, son of the famous Englishman, were presented to the regimental and auxiliary parades.

"We're sure the pictures will be a great hit with the boys," said Lt. Col. G. C. Morrison, commanding officer of the regimental and auxiliary parades.

30 men said he had never forgotten the pictures.

Edmonton Gives Calgary the Cake

### Flying Saucer Flight New Trick At Air Show

There's not so much mystery to that flying saucer business.

After a few scientific fact, there will have one going through a controlled flight at the junior airshow at Norman airport on Sunday.

The "flying saucer" is a third annual Alberta provincial model aircraft competition of the Alberta Branch, Model Aeromodeling Association of Canada.

The "flying saucer" designed and built by the Alberta Branch model aircraft expert, will be a 30-inch wingspan powered by an ordinary 23 h.p. model aircraft motor.

**CONTROL FLIGHT**

Controlled flight travel in a controlled aircraft, guided by two to four farms at Edmonton, yesterday night, made a clean sweep of the top awards in the Aerobatic Angus classes at the Manitoba exhibition.

From the top, the design looks like the conventional idea of a flying saucer, but it has two long wings, one on each side, for aerobatic stability when it makes it resemble a "flying saucer."
